<u>June 12, Wednesday</u>
8:30 am   ***Welcome/Announcements/Introductions*** *- Joe Catrino, CEIA VP Professional Development,*
                          Trinity College

9:00 am-9:15 am   ***How We Got Here*** *- Peggy Harrier, CEIA Executive Director*

                          A brief history of experiential education, CEIA, and the Academy. This brief session will provide
                          attendees with an overview of the history of the field, of CEIA as an organization, and the
                          Academy as a training platform.

9:15 am - 10:00 am   ***What's My Job?*** *- Zach Osborne, Nova Southeastern University*

                          This introduction to the DACUM as a concept and tool will teach attendees how to use the
                          DACUM to understand their roles in experiential learning, dig deep into success factors and
                          approaches that can be used to achieve greater success, and aid in explaining their role and
                          experiential learning to others.

10:00 am - 10:15am   ***The CEIA Academy Project*** *- Joe Catrino, CEIA VP Professional Development, Trinity College*

                          An introduction to the CEIA Academy Project concept using a Design Thinking Approach.

10:15 am   Break

10:30 am-10:45 am   ***Dig into the DACUM*** *- Zach Osborne, Nova Southeastern University*

                          Individual time to explore the DACUM and think about the CEIA Academy Project

10:45 am - 11:45 am   ***Design Thinking and Wicked Problem Solving*** *- Joe Catrino, CEIA VP Professional*
                          Development, Trinity College

                          Attendees will be introduced to design thinking and Stanford University's award-winning,
                          paradigm-shifting curriculum of designing your life. The design thinking process is a powerful
                          framework for understanding and solving complex problems. Professionals will learn how to
                          push beyond their first good idea and discover a new level of creativity and momentum. This
                          interactive session will provide attendees with a foundation of design thinking and an opportunity
                          for a hands-on design challenge, which will result in each attendee taking a new idea back to their
                          institution.
